

Dansville Middle School Board Report:

Monday, November 30 DMS students received a note from Augieletta the Elf, a cousin of Augie the Dansville mascot. In it she shared how Augie has been down in spirits and how DMS students could brighten his day by decorating the middle school and showing their holiday spirit! Students did an exceptional job at decorating their hallways AND impressing Augie when he visited later in the week. Augie was SO happy that his DMS family showed their Aggie pride by decorating the halls for him.

Monday, December 7 one 6th grade cohort was moved to virtual learning for two weeks while they quarantined. The transition to online learning for 6th grade students and teachers went very smoothly due to the huge efforts by our staff creating a plan two weeks prior in case they needed to switch. All students were present for their first online learning session this year!
