

Dansville Middle School Board Updates

April 2024

- The district provided viewing glasses for all our Aggies, so they could watch the eclipse at the end of the school day. Middle school science and STEAM teachers Anna Lloyd and Angie St. Amant also hosted a “viewing party” for middle school students who wanted to stay after school to see the maximum coverage.
- We are continuing to recognize students for reaching personal growth goals, including improved attendance, academic gains and completing the Spring Math intervention program. We are very proud of the work being done by these students!
- Four DMS students received a custom bicycle and helmet through the Riding Towards Success program, which is sponsored by the Ingham County Sheriff’s Department and Scooter’s Holt Pro Cycle. The students were nominated based on their positive attitude and growth in school. We are so excited that our Aggies were selected for this program!
