

Dansville Middle School Board Updates

February 2023

- Dansville Middle School 8th grade students had an opportunity to participate in a financial “Reality Store” sponsored by CP Federal Credit Union. Students were able to select a career, and then were assigned expenses to budget. This was a fun way to have the students think about how their future education can impact their financial earnings.
- The DMS Student Council sold “candy grams” and hosted a dance for students to celebrate Valentine’s Day.
- Students in Mrs. Krieger’s social studies classes worked in groups to create their own island. Each island had to make choices about their government, trade, and infrastructure. The students enjoyed the activity, and quickly learned they had to work as a team to have success on their island.
