

Action on Agenda Items**1120**

It is the intention of the Board to allow as much public comment as possible on any action it takes. Consequently, before the Board takes a vote or other formal action on any agenda item, it will make every effort to have that item on the agenda of a full Board meeting on a prior occasion. The Board may waive this rule, however, in the event of unforeseen circumstances which would render such advance notification impossible and where an immediate vote of the Board on the matter is in the best interests of the District. Board action on matters of policy shall be subject to state law.
