

Drivers Education Policy

Dansville Schools, in cooperation with outside organizations, provide Driver Education instruction for Dansville students. We have no control over who enrolls in Driver Education classes.

Dansville Schools will submit the required state reports to the State of Michigan for reimbursement to students living within the Dansville School's enrollment area, as defined by district boundaries.

Students who are not in attendance at Dansville Schools, but submit forms for reimbursement for Driver Education cost, will receive the state reimbursement less twenty-five dollars (\$25.00) as a fee for the school doing the reports and issuing a check.
