

Dansville High School Board Updates

November 2020

- Dansville High School students in Mrs. Braman's American Literature classes honored our heroes on Veterans' Day by creating a video filled with poems and pictures done by students. This virtual version of the assembly represented the sixth year of this annual event.
- Dansville High School seniors and their parents were invited to attend a virtual FAFSA (college financial aid) session led by Dansville's Capital Area College Access Network advisor and a college admissions specialist. Families had an opportunity to electronically complete their FAFSA forms and ask questions.
- Members of the National Honor Society have organized a Food Drive to collect donations to help several of our local families for Thanksgiving. We have approximately 20 families that will be served by this event.
- Students in Mr. Sheridan's Zoology class had an opportunity to participate in a presentation on Artificial Insemination of cattle using actual reproductive tracks. We appreciate CentralStar Cooperative for sharing their expertise with our students.
- The Dansville High School Marching Band performed their "Beatles" show for parents in a special evening performance. The students enjoyed this opportunity to show what they have learned during the first part of the year.
