

February 2022  
Superintendent Board Report

Dedication:

As many of you may already know, our wrestling room was dedicated in memory of Coach Greg Mack last week. Greg was a parent and longtime coach of several sports in Dansville. He was working with his kids and several other Dansville students in our weight room on February 15, 2017, when he suffered a massive heart attack and died immediately. His passing was very difficult on the students and has left a hole in the community. The weight room was demolished as part of the construction project and the district has been able to honor his legacy with the naming of the new wrestling facility.

Assessment Report:

Enclosed in the packet is information regarding the recent student interim screeners/assessments. As the reports demonstrate, students are continuing to make gains in both math and reading. Kudos to our staff for their continued diligence in helping our students succeed.

Covid Update:

With positivity rates dropping and less cases in the county, I'd like to be optimistic that we will not have another surge prior to the end of the year. Administration is continuing to work with staff to assist with any ongoing mitigation strategies and review the policy from this past fall as we continue to work towards a more "normal" environment. I would like to compliment staff for creating an environment where optional masking is accepted.
