

Facilities Report

April 2025

- Work on and with contractors to get the storm damage dealt with, as the weather warms still finding issues with A/C and controls for HVAC.
- Continuing to frequently repair Middle School lockers, searching for a company that may be able to refurbish so it's not a constant issue.
- Took a hands-on training course from one of our vendors on pump rebuilding.
- In the process of changing the filters for the district HVAC systems.
- Working on a summer list which includes updating our drinking water points with filters for the upcoming Filter First requirements and looking forward to working with a company on an assessment of the district.
