

## Dansville Middle School Board Updates

October 2025

- Our students enjoyed participating in Homecoming Spirit Days. Each day had a different theme, and students could have fun by dressing up in creative attire. The house with the most participation each day earned points for its team.
- The middle school students spent the September half-day participating in house activities focusing on social media and online safety. The students also reviewed how to report safety issues using the OK2Say tip line. The morning ended with a championship round of “Rock, Paper, Scissors.”
- Approximately 58% of our middle school students had a parent or guardian attend Parent-Teacher Conferences, which is near average from past years.
- Students in Mr. Shellenbarger’s technology classes partnered with Andrew Shauver from Ingham ISD to explore computer hardware. The kids had an opportunity to take apart old computers and other devices to learn how they are constructed.
