

## Facilities Report

### January 2026

- Had the handrails in the high traffic areas repainted over break and they look amazing.
- New door sweeps were installed on all the exterior doors to help keep out drafts as well as pests (the four-legged kind, not two legged).
- Another issue with the aging plumbing systems in the elementary: kitchen drains were plugged with grease, had to have the pipes pressure cleaned to get them cleared. Also, in the process (hopefully this will be done by the time of the meeting) of getting the remnants of the discharge from the drains cleaned up from the crawl space under to kitchen.
